PREFACE.

As the second volume of the Cheshire series the Editors have pleasure in presenting to the subscribers the Marriages of the extensive parish of Prestbury from 1637 to 1731. The Prestbury Registers, from 1560 to 1636, were printed some years ago by the *Record Society for Lancashire and Cheshire*, Baptisms and Burials as well as Marriages, so the present volume continues the Marriages from the point where that leaves off. The Parish of Prestbury was so important, embracing so many chapelries and hamlets in the Macclesfield district of East Cheshire, that the Editors intend to continue the Marriages of that parish until all are printed, down to 1812, and, if possible, to 1837.

The next volume (*Cheshire, Vol. III.*) is already in the press, and continues these Marriages, therefore, from 1732 until well into the latter half of the 18th century.

It should be borne in mind that previous to 1752 the year was calculated as beginning on the 25th of March, instead of the 1st of January, so that a marriage taking place on say 20th February, 1625, would be on that date in 1626 according to our reckoning; but as the civil and ecclesiastical year were both used, this is sometimes expressed by 20th February, $162\frac{5}{6}$.

In all cases where the marriage is stated to have taken place by licence, that fact is recorded, as the searcher thereby knows that further information as to the age, parentage and

vocation of the parties is probably recoverable from the Allegations in the Archdeaconry or other office from which the licence was issued.

It must not be forgotten that these transcripts are not legal "evidence," and that for certificates the clergy in charge of the registers must be applied to and the usual fees paid.

Better support, in the form of further subscribers, is urgently appealed for. So far the Cheshire series has been printed at a loss. A few more subscribers would remove this disability and enable much more rapid progress to be made.

Marriages at Prestbury,

1637 to 1812.

NOTE.—The picturesque village of Prestbury, containing under 300 inhabitants, gives its name to the largest parish in the county (62,740 acres). The size of the parish may be judged by the fact that it had, until recent years, a circumference of over 40 miles, and contained within its boundaries the borough of Macclesfield and the townships of—

Adlington	Lyme Handley	Prestbury
Birtles	Lower Withington	Rainow
Bollington	Macclesfield-Forest	Siddington
Bosley	Marton	Sutton
Butley	Mottram St. Andrew	Titherington
Capesthorne	Newton	Upton
Chelford	North Rode	Wildboarclough
Fallibroome	Old Withington	Wincle
Henbury	Pott Shrigley	Woodford
Hurdsfield	Poynton	Worth.
Kettleshulme		

Several of these townships have been dismembered from the mother church and are now separate parishes. "Earwaker" states that in early times Taxal, Gawsworth, and probably Nether Alderley also formed part of this extensive parish; these parishes, however, do not come within the scope of these registers as chapelries of Prestbury.

The church is of much interest, but the greatest feature of Prestbury is the original Norman chapel that stands close by in excellent condition, and which is of great interest to all archæologists.

The feature of the registers is the names of places from whence one or both of the parties came, which, with very few exceptions, are given as in the following example, that is until the passing of the Marriage Act of 1754:—"Butley. John Brown and Mary Frost. 16 Decr. 1689." It may therefore be taken that one of the parties came from the township of Butley, or, perhaps, both. Where there is the slightest doubt on the matter, as at the commencement of Volume VII., the name of the man is given as coming from the place named, and the woman's abode left blank. In the earlier registers

the entries are recorded in Latin, with the exception of the personal names, and in the first three registers the days of the month are given in Roman numerals.

The original paper register (which we will call Volume I.) used in accordance with the directions issued by Sir Thomas Cromwell in 1538, and covering the period from 1560 to 1606 for Baptisms, Weddings and Burials, is still preserved at Prestbury. The covers and parts of the first few leaves are greatly injured by damp, but later on the entries are perfectly readable, although traces of damp run through the whole volume. This register is carefully packed away in brown paper, together with other ancient parish records. "Earwaker," in his "History of East Cheshire," states that this is the only instance of the ancient paper register that he has come across within the Hundred of Macclesfield.

Enclosed in the aforesaid parcel is a small quarto paper volume, containing 29 leaves, with brown paper covers, on the outside of which is written :—"Paper Register 1657 for Christenings and Burials." This dilapidated little volume contains, amongst other matter, entries of Marriages, Banns of Marriage, Christenings and Burials for a few odd years, commencing with 1654 and ending with 1664. These appear, however, to have been transcribed into Volume III.

Volume II. contains 118½ parchment leaves, measuring 15½ by 6½ inches, bound in leather-covered boards. This volume is a transcript of the paper register (1560 to 1606), and contains also the Baptisms, Weddings and Burials from 1606 to 1636. As this register has already been transcribed and printed for the *Record Society of Lancashire and Cheshire*, it has been deemed unnecessary to include it in this series.

Volume III. consists of 101 parchment leaves, measuring 13 inches by 6½ inches, enclosed in leather-covered boards. This volume contains the Baptisms, Marriages and Burials from 1637 to 1685. On the outside front cover is printed :—"Register of Marriages, 1637." On the first parchment sheet is a statement of the Will of Thomas Piggott, of Butley, dated 18 Nov. 1664, by which he leaves £24 in trust to be distributed to the poor of Butley and Newton yearly. The statement is signed by the testator, and witnessed by Thomas Jeynson, vicar, Wm. Watts, and Thomas Jeynson, junr. On the last sheet is the following memorandum :—"Whereas it appeareth unto me that Thomas Jeynson, clerk to the parishioners of the parish of Prestbury, in their public meeting in the Parish Church of Prestbury upon the two and twentieth day of this instant, was nominated, elected, and chosen Parish Register for the said parish, according to an Acte of this Present Parliament, intituled an Acte touching Marriages and the Registration thereof, and also touching Births and Burials, wherein power is given to any one Justice of the Peace to approve of the respective Parish Registers in their several divisions. I doo hereby at the request of the churchwardens and

the parishioners of the said parish approve of the said Mr. Jeynson to bee parish Register of the parish aforesaid.

Witness my hand the xxvi° day of September 1653."

(Signed by Sir Thomas Stanley, of Alderley.)

Volume IV. contains 87 parchment leaves, two of which are blank, and four paper leaves, measuring 14½ by 7 inches, and bound in leather-covered boards. On the third paper leaf is written :—"The Register Book Belonging to the Parish Church of Prestbury"; and on the outside cover is printed :—"Register of Marriages, 1686." This volume contains the Baptisms, Marriages and Burials from 1686 to 13th February, 1720. From 1690 the bottom of each page is signed by the incumbent.

On the first parchment sheet is a memorandum by which Roger Holland, late parish clerk of Prestbury, who died in 1694, left £6 yearly for ever, which sum was to be raised off his land in Mottram-Andrew, and distributed amongst 23 townships of the parish.

Volume V. consists of 115 parchment leaves and four paper leaves, measuring 12 by 6¾ inches, enclosed in leather-covered boards. On the outside cover is printed :—"Register of Marriages, 1721." This volume contains the Baptisms, Marriages and Burials from 11th April, 1721, to 8th March, 1747. On the second paper leaf is a memorandum dated 1748, by which the right of presentation to Siddington Chapel was granted to John Ward, of Capestone; Charles Legh, of Adlington; and Joseph Ward, vicar of Prestbury, on certain conditions.

Volume VI. consists of 129 parchment leaves (five of which at the end of the volume are blank), measuring 12 by 6 inches, enclosed in leather-covered boards. On the outside cover is printed :—"Register of Marriages, 1748." This volume contains the Baptisms from 1748 to 1776; Marriages from 10 April, 1748, to 27 Decr., 1755; Burials, 1748 to 1776.

Volume VII. is the usual printed register according to the form authorized by Act of Parliament in 1754. It contains 59 leaves, measuring 14¾ by 9¾ inches, bound in leather-covered boards. On the outside cover is printed :—"Marriages, 1754." This volume records the Marriages from 28 April, 1754, to 16 October, 1757. It will be noticed that this period includes the Marriages from 28 April, 1754, to 27 December, 1755, which will also be found in Volume VI. The Marriage entries for this period are, therefore, not transcribed from this volume, but both registers have been compared, and any discrepancies are noted in square brackets in Volume VI.

Volume VIII. is a Marriage register and Banns' book combined, bound in leather-boarded covers. On the outside cover is printed :—"Marriages, 1757." This volume consists of 25 leaves in the Marriage portion and 20 leaves in the Banns' portion, and measures 14½ by 9¼ inches. The entries cover the period from 16 October, 1757, to 23 June, 1759.

Volume IX. is the usual printed register, containing 258 leaves, measuring 14¼ by 9¼ inches, and bound in leather-covered boards. On the outside cover is printed :—"Register of Marriages, 1759." This volume covers the period from 23 June, 1759, to 30 Decr., 1773.

Volume X. is a Banns' Book and Register combined. The register portion contains 28 leaves (five of which are blank), measuring 14⅝ by 9½ inches, and bound in leather-covered boards. On the outside cover is printed :—"Register of Marriages, 1774." This volume contains the Marriages for the year 1774 only.

Volume XI. is the usual printed form, containing 300 leaves, measuring 14 by 9 inches, and bound in leather-covered boards. This register records the Marriages from 1 January, 1775, to 29 December, 1789.

Volume XII. is the usual printed form, containing 311 leaves, measuring 14 by 9 inches, and bound in leather-covered boards. It records the Marriages from 29 December, 1789, to 2 June, 1803. On the outside cover is printed :—"Register of Marriages, 1789."

Volume XIII. is the usual printed form, containing 289 leaves, measuring 14 by 9 inches, and bound in leather-covered boards. It contains the Marriage entries from 5 June, 1803, to 31 December, 1810. On the outside cover is printed :—"Register of Marriages, 1803."

Volume XIV. is the usual form, containing 300 leaves (of which only 76 are used), measuring 14½ by 9½ inches, and bound in leather-covered boards. This volume contains the Marriages from 1 January, 1811, to 29 December 1812. On the outside cover is printed :—"Marriage Register."

The registration of Baptisms and Burials from 1776 to 1812 occupy two separate volumes, bound in leather-covered boards. All the above-mentioned registers, with the exception of the ancient paper volumes, are in excellent condition.

These records have been transcribed and contributed to this series by Mr. Leopold Choice, of Disley, and are now printed by leave of the Rev. R. E. Broughton, M.A., vicar of Prestbury.
